

## ACI - The Financial Markets Association

8 rue du Mail, F 75002 Paris, tel: +33 1 42975115

To all National Associations, BoE and Excom members,

### **New Treasury Operations Certificate replaces old Settlements Certificate!**

Dear President and Secretary,

ACI – The Financial Markets Association has again set a benchmark for educating professionals in wholesale financial markets.

Together with the Frankfurt School of Finance & Management, ACI and its international Operations Working Group have implemented a new Operations Certificate to help operations teams and related groups to efficiently cope with stronger competition in financial markets and a new range of supervisory regulations.

A redesigned syllabus with revised and updated topics and a large set of brand-new questions reflect the state of the art of our industry and ensure the high standard and quality of ACI education.

We would be pleased if you, as president and secretary of your national association, were to communicate the launch of this new Operations Certificate to your national members and stakeholders, and thus promote the spirit of ACI being one community with skilled professionals through a state of the art education.

The presentation and press release are given to support this effort. You can also find a flyer about the Operations Certificate at [http://www.frankfurt-school.de/dms/Veranstaltungen/ACI/flyer\\_operations\\_certificate/flyer\\_operations\\_certificate.pdf](http://www.frankfurt-school.de/dms/Veranstaltungen/ACI/flyer_operations_certificate/flyer_operations_certificate.pdf) and please feel free to also send the flyer to your national members.

For further information on ACI education and the new Operations Certificate, please visit [www.aciforex.com](http://www.aciforex.com).

Best regards

Saad Jamaledine

Chair of ACI Board of Education

Andreas Gaus

Member of ACI Board of Education and  
Head of ACI Operations Working Group
